

# PIXELS

“There is one thing the photograph must contain, the humanity of the moment.” — Robert Frank

Every big thing starts with a small move. Just like that a pixel, a small square consisting of a single colour, is the first step to capturing the world's beauty. They say a picture is worth a thousand words, then what about a camera that captures hundreds of them? Mesmerize audiences with those beautiful pictures and let's try to answer the question - How many words is a camera worth?

---
